Smoothwall for Government

Protecting over 90 council networks throughout the UK

At Smoothwall we understand that UK councils have a duty to provide a web security solution which meets not only the needs of their corporate environments, but also their education customers and public access schemes.

As market leaders in the UK public sector, we pride ourselves on our ability to continually meet the needs of this complex and ever-changing marketplace, by engaging in direct strategic relationships with our customers and providing unrivalled support from our dedicated offices based in the United Kingdom.

Our market leading dynamic content filtering currently covers more than 90 UK council networks and helps to secure children in more than 7000 UK schools.

If you require firewall and security, our UTM range offers you the complete protection package, if you have an existing firewall, our SWG web filter integrates easily. As a truly scalable solution, we have products appropriate for all sizes of network.

“Whatever the device or location - we are confident that users are protected.”

Ben Jones - Worcestershire County Council

Key Features

Granular Categorisation

Allows the application of different filtering rulesets per user group, providing multiple levels of categorisation.

Full Multi-Tenancy

Our multi-tenant technology allows hassle free delegation of system administration and reporting to individual schools or business areas.

Audit Level Reporting

With full visibility of web activity on your network, you can provide information governance reports and any freedom of information requests, in real time by using any of the 300 report templates.

Dynamic Content Analysis

Identify and filter brand new web content in real-time long before URL block lists, to prevent any unwanted material being viewed.

Digital Inclusion

Supporting digital inclusion schemes by providing safe, simple and monitored web access, guaranteeing positive user experience.

Gateway Anti-Malware

An option across our product range, our market leading anti-malware solution powered by BitDefender will protect your network from web-borne malware attacks and includes HTTPS protection.

The Next Step

At Smoothwall we understand that flexibility is key and with a variety of different deployment options available we're confident we can help find a solution to suit your individual needs.

Safeguarding in Education

We understand the importance of keeping children safe within Education and that's why our solution is dedicated to helping you meet your safeguarding obligations today and into the future.

Our solution allows you to provide your schools with the latest approach to safeguarding. With our renowned real-time HTTPS content filtering and market leading safeguarding suite, we ensure that schools are able to comply with, and exceed, Prevent Duty obligations and Ofsted expectations.

Not only that but our multi-tenant technology enables the hassle free delegation of system administration and reporting within individual schools, helping to save you both time and money.

Flexibility for your corporate estates

Smoothwall provide safe and secure dynamic web filtering for council offices.

We fully understand the complexities of ensuring an acceptable usage policy is adhered to without restricting access to key business functions and services.

Smoothwall also recognises the ever increasing growth in the demand for public access Wi-Fi and digital inclusion schemes across council networks.

With our granular web filtering categories, our dynamic content analysis, safeguarding functions and best of breed reporting suite, we are able to offer councils peace of mind when it comes to providing safe, secure and monitored web access to your users, guaranteeing a positive user experience whilst protecting the councils reputation.

“The support we have received from Smoothwall has been second to none.”

Worcestershire County Council

“Whilst we didn’t need support during the installation because there wasn’t a single issue, as the project grew Smoothwall’s support became a trusted friend.”
